RECENSEMENT DU CANADA 1971

Population

WOMEN EVER MARRIED
BY NUMBER OF CHILDREN BORN

Population

FEMMES NON CÉLIBATAIRES SELON
LE NOMBRE D'ENFANTS MIS AU MONDE

INTRODUCTION

This report presents data for Canada and the provinces on the distribution of women ever married by number of children born. The tables include information on the age of the women at the 1971 Census as well as their age at first marriage.

Data on the number of children ever born were obtained from the answer given to the following question by respondents in a one-in-three sample of households:

29. For WOMEN ever married:

How many babies have you had, not counting stillbirths?

- | | | |
|----------------------------|-------------------------|---------------------------|
| <input type="radio"/> None | <input type="radio"/> 5 | <input type="radio"/> 10 |
| <input type="radio"/> 1 | <input type="radio"/> 6 | <input type="radio"/> 11 |
| <input type="radio"/> 2 | <input type="radio"/> 7 | <input type="radio"/> 12 |
| <input type="radio"/> 3 | <input type="radio"/> 8 | <input type="radio"/> 13 |
| <input type="radio"/> 4 | <input type="radio"/> 9 | <input type="radio"/> 14+ |

Respondents were thereby asked to include all children to which they had ever given birth (excluding stillbirths), i.e., children no longer living, those born to an earlier marriage, those now away from home as well as those still living at home.

For this and other reports dealing with data on this subject, the following definitions are applicable:

Women ever married: Includes all women 15 years and over, who reported themselves as having been married at one time, even though they may have been separated, widowed or divorced at the census date.

Age: Refers to completed years of age at last birthday prior to June 1, 1971. Respondents were asked to report their month and year of birth, which was converted by mechanical means to age at last birthday.

Age at first marriage: This question was not asked directly of respondents, but was derived by mechanical means from answers given to the questions on date of birth and date of first marriage.

Geographic terms used in this report are defined for census purposes as follows:

Urban: Includes the population living in: (1) incorporated cities, towns and villages with a population of 1,000 or over; (2) unincorporated places of 1,000 or over having a population density of at least 1,000 per square mile; (3) the built-up fringes of (1) and (2) having a minimum population of 1,000 and a density of at least 1,000 per square mile.

Rural: Includes all the remaining population.

Urban size groups: Municipalities classed as urban under (1) and (2) above are classified by size groups according to their population. However, any municipality or part of a municipality lying within the urbanized core (i.e., the central city together with its adjoining built-up area) of a census agglomeration is allocated to the size group of the entire urbanized core.

Rural farm population: Includes the population living in dwellings situated on a farm in rural areas. A farm, for census purposes, is an agricultural holding of one or more acres with sales of agricultural products of \$50 or more in the previous year. All persons living on such holdings in rural areas are classed as "rural farm" regardless of their occupation. Thus, the population living on "census-farms" would include some persons not connected with farming operations and who derive their income from non-agricultural pursuits. Conversely, it would exclude those farm operators and their families who do not live on their farm holdings (e.g., in a neighbouring town or village).

Data on women ever married showing the relationship between number of children and such characteristics as ethnic group, period of immigration, language, religion, education and economic activity, will appear in a later report of the 1971 Census series (Catalogue No. 92-751).

The information in this report was collected on a sample basis. As a result, the population for a given geographic area may differ from that shown in reports containing data collected on a 100 p.c. basis. The latter figures, of course, represent the official population counts (see Catalogue Nos. 92-704 to 92-707).

Ce bulletin donne la répartition des femmes non célibataires selon le nombre d'enfants mis au monde, pour le Canada et les provinces. Les tableaux comprennent des renseignements sur l'âge des femmes au recensement de 1971 et sur leur âge au premier mariage.

Les données sur le nombre d'enfants mis au monde sont fondées sur des renseignements obtenus auprès d'un tiers des ménages privés et proviennent de la réponse à la question suivante:

29. Aux FEMMES déjà mariées:

Combien d'enfants avez-vous eus, sans compter les enfants mort-nés?

- | | | |
|-----------------------------|-------------------------|---------------------------|
| <input type="radio"/> Aucun | <input type="radio"/> 5 | <input type="radio"/> 10 |
| <input type="radio"/> 1 | <input type="radio"/> 6 | <input type="radio"/> 11 |
| <input type="radio"/> 2 | <input type="radio"/> 7 | <input type="radio"/> 12 |
| <input type="radio"/> 3 | <input type="radio"/> 8 | <input type="radio"/> 13 |
| <input type="radio"/> 4 | <input type="radio"/> 9 | <input type="radio"/> 14+ |

Les recensées devaient compter tous les enfants qu'elles avaient mis au monde (à l'exclusion des mort-nés), soit les enfants décédés, les enfants habitant ailleurs, les enfants issus de mariages antérieurs et les enfants restant encore à la maison.

Les définitions suivantes s'appliquent à ce bulletin et à toutes les autres publications consacrées au même sujet:

Femme non célibataire: Femme de 15 ans et plus qui est ou qui a déjà été mariée, même si elle est séparée, veuve, ou divorcée le jour du recensement.

Age: Nombre d'années révolues au dernier anniversaire avant le 1^{er} juin 1971. Les recensées devaient indiquer le mois et l'année de leur naissance; ces renseignements permettaient d'établir l'âge au dernier anniversaire par des moyens mécanographiques.

Âge au premier mariage: Cette question n'a pas été posée; l'âge au premier mariage a été établi par des moyens mécanographiques à partir de la date de naissance et de la date du premier mariage.

Voici la définition, aux fins du recensement, des termes géographiques utilisés ici:

Régions urbaines: Comprend la population vivant dans: 1) les cités, villes et villages constitués de 1,000 habitants et plus; 2) les localités non constituées de 1,000 habitants et plus et ayant une densité de population d'au moins 1,000 habitants au mille carré; 3) les banlieues bâties de 1) et 2) ayant une population minimum de 1,000 habitants et une densité d'au moins 1,000 habitants au mille carré.

Régions rurales: Comprend tout le reste de la population.

Régions urbaines par groupe de taille: Chaque municipalité urbaine mentionnée à 1) et 2) ci-dessus est classée selon le groupe de taille de sa population. Toutefois, chaque municipalité (ou partie de municipalité) constituant le noyau urbanisé (ville principale et sa zone bâtie) d'une agglomération de recensement est classée dans le groupe de taille de l'ensemble du noyau urbanisé.

Population rurale agricole: Comprend la population vivant dans des logements situés dans des fermes dans des régions rurales. Aux fins du recensement, une ferme est une exploitation agricole d'une acre ou plus ayant vendu pour \$50 ou plus de produits agricoles au cours de l'année précédente. Toutes les personnes vivant dans une de ces exploitations situées dans une région rurale sont classées sous la rubrique "régions rurales agricoles", quelle que soit leur profession. La population des "fermes de recensement" comprend donc certaines personnes qui n'ont rien à voir avec l'exploitation agricole et qui tirent leur revenu de l'exercice d'activités non agricoles. En contrepartie, les exploitants agricoles et leur famille qui n'habitent pas leur exploitation agricole (par ex., ceux qui habitent dans une localité voisine) ne sont pas pris en compte.

Des données sur les femmes non célibataires mettant en évidence le rapport entre le nombre d'enfants mis au monde et des caractéristiques telles que le groupe ethnique, la période d'immigration, la langue, la religion, la scolarité et le travail feront l'objet d'une publication distincte de la série du recensement de 1971 (n° 92-751 au catalogue).

Les renseignements de la présente publication ont été recueillis par échantillonnage. Il s'ensuit que les chiffres de population pour une région géographique donnée ne sont pas forcément les mêmes que ceux des publications dont les données avaient été recueillies à 100 p. 100. Bien entendu, c'est ce dernier chiffre qui représente le dénombrement officiel de la population (voir publications nos 92-704 à 92-707 au catalogue).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 92-713). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

Par souci de confidentialité, les chiffres de 1971 publiés ici ont été soumis à une formule qui garantit l'impossibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités, des tableaux (y compris tous les totaux) sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De même, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas disponibles au moment de la publication. Elles seront disponibles dans le rapport introductoire de ce volume (n° 92-713 au catalogue). Les utilisateurs demandant ce renseignement avant la publication du rapport introductoire devraient s'adresser au Service-utilisateurs, Recensement.

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. A standard User's Request Form on which to outline precise tabulation requirements and to request time and cost estimates may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Publications du recensement du Canada de 1971

Le présent bulletin fait partie de la série des volumes des recensements de la population, du logement et de l'agriculture de 1971. Cette série compte au total environ 225 bulletins présentés de telle sorte qu'en retirant leur couverture l'utilisateur peut les réunir et constituer ainsi les 6 volumes de la série, qui comprennent 25 parties distinctes. Un auto-relieur à couverture rigide portant le titre approprié est compris dans le prix d'achat de la série complète des bulletins constituant une partie de volume.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Toute commande doit être accompagnée d'un chèque ou d'un mandat établi à l'ordre du Receveur général du Canada. On peut aussi commander les publications du recensement aux librairies d'Information Canada de Halifax, de Montréal, d'Ottawa, de Toronto, de Winnipeg et de Vancouver. Pour plus de détails sur les comptes de dépôt, les commandes en gros, etc., s'adresser à la Distribution des publications, Statistique Canada.

Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaires". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Division du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. On peut obtenir auprès du Service-utilisateurs de la Division du recensement de Statistique Canada une formule normalisée sur laquelle l'utilisateur précisera ses besoins et demandera une estimation du délai et du prix.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs de la Division du recensement de Statistique Canada.
